How does Duro Opulence form?

Here's a breakdown of how each layer contributes:

Ceramic-bead Finish UV Coating

Strong and eco-friendly nanoscale ceramic particles mix with polyurethane liquid applies to the design of the top layer of Duro Opulence hybrid flooring. These ceramic-beads are extremely robust, combined with super thick UV coating, protect the surface of flooring against scratches, spill and dent from both daily activities and long-term use.

Wear Layer

A strong wear layer is crucial to protect decorative film underneath from damages and keep the long-term resistance to wear and tear. Duro Opulence offers a 0.3mm wear layer, suitable for residential and light commercial duties.

High-Definition Décor Film

An exclusive use of high-definition film delivers authentic timber visuals and textures, makes people thinking they are real natural timber planks.

Solid Polymer Core Board

The balanced mix of PVC and stone power creates a solid rigid core that supports this flooring behave high level of stability, durability and sturdiness.

IXPE Padding

IXPE Padding offers an ideal anti-noise shield, reduce noise transmission from and between planks, enhance comfortable footage.

Why choose Duro Opulence hybrid flooring?

OPULENT DESIGN

Transform your space into a sanctuary of elegance with Duro Opulence. Each plank showcases intricate textures and rich finishes that mimic the natural beauty of timber, creating an atmosphere of opulence that never goes unnoticed.

UNMATCHED DURABILITY & STABILITY

Engineered for resilience, our flooring resists wear, scratches, and stains, making it ideal for high-traffic areas. Its durability and stability ensures your floors will maintain their luxurious appearance for years to come.

WATERPROOF TECHNOLOGY

Whether it's the kitchen, bathroom, or living room, Duro Opulence waterproof core stands up to spills and moisture, proving that practicality can coexist with grandeur.

COMFORT AND QUIETNESS

Feel the difference underfoot. This hybrid flooring is designed for comfort, with noise-reducing layers that maintain a tranquil and serene environment.

VERSATILE AND STYLISH

Whether you're designing a sophisticated dining room, a cozy family space, or an opulent entrance, Duro Opulence complements any interior theme. Its seamless blend of timeless style and cutting-edge engineering makes it the ultimate choice for discerning homeowners.

Technical Data

Type	Rigid Core Hybrid Flooring
Board Width	230mm
Board Length	1524mm
Board Thickness	8mm
Pack Size	2.10312sqm, Board per pack, 6pcs
Pack Weight	26.3kg
Finish	Matt
Bevel	4 side-micro bevelled
Profile	Clicking

Tests

Acoustic Test Result	5 star (AAAC Star Rating)
Fire Test Result	CHF Value Mean 10.2 kw/sqm
Slip Test Result	P4 (4S Slider, EN13036-4)

Maintenance Tips

Regular Cleaning

- Sweep the flooring regularly with an electrostatic broom, a soft bristle broom, or a wooden floor mop.
- Use a vacuum head with soft bristles (non-abrasive, no metal contact points) to remove dust.

Protection Tips

- Place floor mats at exterior and interior doors to trap sand and small stones and to dry feet after pool activities.
- Use rugs or mats in high-traffic areas to reduce wear and scuffing.
- Attach soft pads to the base of furniture with direct contact to the flooring to prevent damage.
- Avoid sliding or pushing heavy furniture while it's in contact with the flooring. (e.g., sofas, refrigerators, TV cabinets, etc.).
- Keep pets' claws well-trimmed to avoid excessive scratches and gouges.
- Quickly remove spills with an absorbent cloth or similar material.
- Place roller wheels on protective mats to reduce grit and wear.
- Put drip pans or protective mats under plant pots and pet feeding or bedding areas to avoid moisture ingress.
- Maintain room humidity between 35% to 50%.
- Use an air humidifier if needed. Ensure good airflow and ventilation to prevent excess moisture, overheating, and extreme cold.
- For site-specific issues, consult your local flooring installer or retailer for the best advice and results.
- Protect the floor from direct sunlight using curtains and UV-resistant film on large glass doors and windows.
